OBITUARY

FRED ANNE
One of Lindsay's Oldest and most
distinguished and best known citi-
zens, was buried on June 11 in the
village cemetery at Wilberforce.
The late Mr. Fred Anne was left,
through his death, a gap that will
be hard to fill. He was outstanding in
his efforts on behalf of the com-
munity in which he spent 24 years of his
life.

Even though he had not for a long
time enjoyed good health, Mr. Anne
was active as a promoter of
sporting events and community days,
a former member of the council,
president of local Red Cross, and
held as his highest achievement the
position of warden of the Anglican
Church.
In 1904 Mr. Anne left Barrie
Resident, a suburb of London, and
came to his birth, came to Can-
ada. The road to success was
hard one in those days, and it is to
Mr. Anne's great credit that he
attained this goal and also carried
on for so many years a place of promi-
nence in the community. Adding his
own ways, the future was his wife
the former May Dickson, who
along with their three sons, Ross,
Murray and Gary are his survivors.
Also living is one brother Herbert,
and one sister Edith both of Eng-
land.

Friends Honor Young Couple

Valencia (PUB.) — A pleasant even-
ing was spent at the home of Mr.
and Mrs. Arthur Harris (nee Vera
Pearson) when a large number of
friends and relations gathered and
presented the young couple
with a miscellaneous assortment of
gifts.

A program was presented out on
the lawn during which a number of
occasionally asked were enjoyed, also
reading by Mrs. Gordon Harris, Mrs.
Clifford Harris, Mrs. Noble Harris
and Mrs. MacFarlane.

Miss Anne and David Harris en-
joyed with a pleasing dish, with
guests' accompaniment.
Arthur and Vera were asked to
come forward at this point in the
program and take the two chairs
placed by a well loved table of gifts.
Mr. Edgar Harper read the follow-
ing address:

Dear Art and Vera:
We are all very glad tonight to
gather at your home and spend a
happy evening together to honour
your recent marriage and bring you
good wishes.
You both have been loved and
appreciated in this community all

The Big Three meeting was resumed in Potsdam this afternoon and President Truman was understood to have informed Premier Stalin and Prime Minister Churchill that he regarded the war against Japan as the first problem of the conference. In their second joint meeting since the conference opened yesterday the three chiefs of state were believed to be still limiting their discussions to the subject of Japan. The meeting was scheduled to lunch with Churchill and pay a courtesy call on Stalin before the afternoon business session but there was no immediate word from the heavily guarded compound where he had done so.

Gen. Francisco Franco told Spaniards last night that monarchy is the only form of rule to save the country's vital interests but did not suggest a date for the restoration. Franco made a 36-minute speech to the Falange Party's National Council. It was broadcast on the radio and in the newspapers. The speech with mixed pleasure and disappointment. They believed that the coup would be a disaster for the institution and his association that the monarchy should be restored only at an opportune moment. Franco said the British and American governments must Spain maintain her neutrality during the war. Franco said the British and American governments must Spain maintain her neutrality during the war. RETURNING LINDSAY MEN GIVE VIEWS ON ALDERSHOT

Pay Claimed Return in Starting Role By

Another group of well-known Halifax fighting men arrived home during the past 24 hours by rail and other means of travel. Included in the group were: Ken Graham, Peter, Cliff, and Art, Hulland, Ed, Bourne, Glen, and Chas. Walton.

During the course of the morning the Post has had the pleasure of talking with a number of these men, many of whom were in Aldershot at the time the recent raid broke out.

In the course of the conversation it was learned that pay for either lack of pay or on short notice lack of pay in causing the outbreak, and while the majority of the men describe them as respectable and well-to-do as far as they were (boldly, many all admit that they were in some way).

A determining factor in getting them home money.

Good Sample
Yesterday's weather was a good sample of what we would like for the next two months, not that we were expecting it. However, it was pleasant looking and feeling when the weather hit first. It was so close to a little in now that the summer has begun.

V V V
Summer Homes Popular
Down at Thurston's a whole lot of little cabins have gone up for rent. They are not far back from the lake and they were very much enjoyed by the available. Cottages for rent or for sale are getting scarcer and scarcer and people are wanting to get nearer their homes for summer vacation. The new ones are from four to six hours to get to once the weather is in the open.

V V V
Gas For Lawned Baited
Motor boat owners are counting their expense and wondering just what they prefer to do with what they get. It is not to take a trip or to go on a nice long survey of all the lakes available. It depends on what horsepower the motor is as to the number of gallons and how much gas it will take. A couple of extra gallons because they didn't send in the proper number. One can take a level trip from Huronport to Vernon through the lakes and out to Lakefield or on to Peterborough. The trip is a lot of fun and with the weatherman and other it like yesterday for a two or three day trip.

V V V
Home All India
We noticed the two little in light hours which were a couple of years ago on the shores of Huronport Lake are still intact. They were the kind that one could erect in about twelve hours and would not last long with rain. It does at the end only. These two samples have about the weather and the family is back again this year enjoying their summer out. They have a nice little house and place and they can be with one or two more on the job. We expect these neighbors have a good, warm home and they service the people for a small family.

V V V
Wild Berries Nearly Mip
Wild raspberries are ripening fast and pretty soon pickers will be out gathering them for jam. A little rain would improve them and by the end of the week they should be fully ripe. If we could only spread our fruits out a state but they all seem to come at once making it a busy time for housewives. We're lucky to be able to get berries already picked for us that is a real treat and eat them too.

V V V
Lindsay Handicap A Marker
We never knew it was possible to see the handicap at or near Pease Lake until the other night. Coming up the river just outside of Pease the sun was shining on it and we could see it quite distinctly. It is the only landmark of Lindsay you can see through from that distance. One couldn't fail to see Lindsay if they followed the line to the water tower.

V V V
Raspberry Sherbet
With raspberries coming in soon, here is a recipe for raspberry sherbet you'll want to try on the family one of these hot July days. It calls for 1 tablespoon granulated gelatin, 1 tablespoon cold water, 3 tablespoons hot water, 1 quart box raspberries, 1 cup sugar, 1 cup milk, 1 cup lemon juice, 2 egg whites. Sprinkle berries with sugar, cover and let stand two hours. Mash, squeeze through cheesecloth, adding milk and lemon juice. Beat gelatin in cold water, dissolve in hot water and bring mixture. Place in refrigerator tray and freeze to a mass. Remove from tray, beat until smooth, then fold in stiffly beaten egg whites. Return to refrigerator and freeze. Serve in sherbet dish if desired. Serves 4.

V V V
Raspberry Ice Cream
If the family prefers ice-cream, here is a recipe they are sure to like. 3 cups fresh raspberries, 1 cup sugar, 1 cup milk, 1 tablespoon lemon juice, 1 cup cream, 1/2 cup cream, whipped. Combine berries and sugar, mash and let stand for one hour. Strain (pour through a sieve) and cream. Whip cream, add berries. Pour into freezing tray and freeze until firm, stirring once during freezing. A quart of milk here could for two days will yield enough whipping cream for this dessert.

Gone to mail cigarettes to our men overseas

Now that our men overseas are engaged in regular and, in many cases, unrelenting operations, there is still greater need for cigarettes and tobacco.

With time on their hands and long roads of routine jobs, cigarettes provide both comfort and relaxation. There is also a shortage of tobacco all over Europe—a tremendous shortage.

So, do your part, help our men overseas cigarettes and tobacco regularly. You'll be doing a good job for the men who have done a good job for you.

114 Persons Convicted On Selective Service Courts

A total of 114 persons were convicted on May 1945 of failing to comply with National Selective Service Court Regulations according to a statement issued by the National Selective Service. Prosecutions were commenced in 133 cases, as against 129 prosecutions in April when 60 convictions were secured.

The May convictions included 10 persons who were found guilty of failing to appear for induction without permits, 43 employees of the military were charged with leaving employment without permits of approval, failing to keep proper work when referred by an employer to another place of employment, and leaving employment to which they had been inducted by the National Selective Service.

As the suspension of Army appeals from May 17 terminated directives in controversial objections to report to an Alternative Service Work Camp, few of the 21 con-

ditional objections continued in May were charged with failure to report to a camp, charges dealt with because of camp discipline by conscientious objectors.

At the National Selective Service Court, 124 persons were still pending, 31 being charged employees and 43 against conscientious objectors. This represents a slight increase over the end of the previous month in cases pending.

From August, 1944, when prosecutions commenced, the National Selective Service Court has been in session. In June 1945, a total of 2,241 charges were filed. There have been 140 convictions to date, at equivalent and 385 cases not proceeded with. On April 18, 1945, a total of 4,830 cases of repeated convictions of the National Selective Service were reported by the National Selective Service.

Between the Mr. Jack Smith of Blackstock, a popular and well known singer, was heard in several songs which included "When the Sun Turns From Blue to Gold", "Traveling", "I'll Wait Only One More Time Again", and "The Lord May On a Nailed Man".

Mr. Dave Archer was the piano accompanist and at one stage Mr. Smith played his own accompaniment.

In Irish song by Mr. Archer was very much enjoyed and he was heartily cheered.

The evening was then concluded by the singing of the National Anthem.

Two-Thirds Adults Own Beer Permit

Toronto, July 13 (BUP)—Two out of every three Ontario adults own a beer ration card. Figures issued by the Ontario Liquor Commission yesterday show that a total of one million 4 hundred thousand permits have been issued during 1945. And this total is being increased at the rate of one hundred thousand a month. The total number of permits of Ontario is set at about 3 million 400 thousand.

The chairman of the Liquor Commission—W. O. Webster, says that despite the increase in the total of permits issued, the Ontario Liquor Commission is not in a position of having the present beer ration of twelve quarts a month.

'The Last Hours Of The Empress Of Asia'

THE EMPRESS OF ASIA of the Canadian Pacific fleet which was sunk by the Japanese on May 18, 1942. The story of the ship's last hours is told in a new book, "The Last Hours of the Empress of Asia," by the late Captain J. H. B. Stewart.

"LONDON, July 13.—Special.—The "Empress of Asia," second of the great white liners of the Canadian Pacific fleet to be destroyed in the war by enemy action, survived one day's bombing attack by 27 Japanese ships of Singapore, but was gutted by her next day when the air attacks were resumed. Fighting ships came out to meet the bombers brought down from the day's attacks, although the flames forced abandonment of the ship. The first attack was on May 18, 1942.

Carrying over 2,000 British troops to Singapore, the Empress of Asia was the second of the Black Birnie of Sumatra, when 27 Japanese bombers attacked. Being the last in line, the Asia came in for a severe attack, but her luck held out. She was hit by a direct hit. Paris of England's ship was also hit, but the flames forced abandonment of the ship. The first attack was on May 18, 1942.

At first that was not enough. As minutes after their arrival at the ship, the Japanese sent 27 paratroopers landed on the river bank only a thousand yards away. Chief Officer J. H. B. Stewart denied. He organized his 41 men to fight back. The Japanese landed and started the landing party and started the landing party and started the landing party.

But in these three hours the "Empress of Asia" was not only a target for the Japanese, but also a target for the Japanese. The ship was hit by a direct hit. The ship was hit by a direct hit. The ship was hit by a direct hit.

Through the courtesy and kindness of the Dutch authorities, we made it arriving at Batavia on February 10th. The Chief Officer J. H. B. Stewart denied. He organized his 41 men to fight back. The Japanese landed and started the landing party and started the landing party.

LIVESTOCK DEALERS SAY NO NEED FOR MEAT RATIONING

Farmers and Cattle Dealers Claim Meat For Export and Home Needs

There is no need for meat rationing in Canada, according to the Canadian Livestock Dealers' Association. It is a sufficient number of cattle in Canada to feed our own people, and surplus to supply the United States without any country going to the aid of getting away.

The government is not of one mind on meat rationing and the Canadian Livestock Dealers' Association is of one mind on meat rationing. The Canadian Livestock Dealers' Association is of one mind on meat rationing.

FROM CANADA TO CALCUTTA

FROM 500 TO SAMARKAND...

Your bank is a link between the man in Canada who has goods and services to buy or sell, and his customers abroad.

The business of your bank is not all done in dollars and cents. It renders valuable service to Canadian business in the far-off market places of the world, overcoming the obstacles of strange currencies, but the pesos or piasters, escudos or ruples.

Through its own branches, or through its commercial correspondents and business connections all over the globe, your bank often has the specialized information necessary to bring buyer and seller together, no matter how far apart they live.

Your bank is able to gather information on the reliability of foreign firms, to handle letters of credit, to arrange the complicated exchange of funds, performing an individual, intricate and inexpensive service to importers and exporters alike.

This feature of Canadian banking has a direct bearing on your welfare. It has, through many years, developed the sale of Canadian goods abroad, resulting in more jobs for Canadian men and women.

Pacific Volunteers Lag— Recruiting Staff Claims

Officer Claims Soldiers' Gratitudes Held Over Head Like An Ash— If It Returned Many That Too Much Has Out Of

Toronto, July 19 (UP)—A Canadian army officer from Toronto says that officers are being given more from Canadian training centres because there are not enough Pacific volunteers to keep them busy.

Authority for this statement is Major Robin Fraser, DSO of the Royal Canadian Engineers. Fraser returned to his Toronto home in May after serving overseas and being twice wounded since then. Fraser says he expects to be transferred to Camp Lehigh which is to be used to come back in a week and that there weren't enough volunteers.

At the same time Fraser says that a military order issued last May includes returning service personnel from making press statements with out first having a copy approved by Ottawa.

Fraser says the order has been kept quiet.

be known as the "Gunny Smyther" order and was named after Major Smyther, made the charges that Canadian forces overseas were desperately lacking in reinforcements.

Fraser says it is because of this order that returning servicemen are reluctant to speak with newsmen. He says the thought of losing their gratuities goes a long way in the decision.

Says Fraser: "They told your gratitudes over your head like an ash. If you open your mouth you're out of that. Why you never get any of those fellows in ask when you meet troop trains — they're all afraid of their gratuities."

He says he is tired of keeping up the figures that since five years overseas he has done his bit. He says he isn't interested in the Pacific but only in getting his change.

And he says he also is interested in the "roundies other" fellows who like him are forced to keep quiet.

COTTISH NURSE SHAPED
LATE PRESIDENT'S CHARACTER

Notice of Miss Macrorie's death was withheld by the family until after the funeral.

British people almost without exception, are proud of their ancestry and of the strict parental discipline which they receive in childhood.

Dr. J. MacIntyre, of Lorne Park, who died July 4, 1934, at Toronto, called at The Register office to see the collection of old newspaper clippings which appeared in a Toronto and Niagara newspaper following the death of James Roosevelt.

These articles have never been sent to the United States, where he resided for nearly half a century, 11 years of which were spent with the Roosevelt family.

JAMES SCOTTISH NURSE SHAPED ROOSEVELT'S CHARACTER

Chicago, July 9, 74.—Mrs. James Roosevelt, mother of the United States President, paid high tribute in an editorial in the Chicago Tribune to the nursing profession.

By mail to Miss Ellen Macneine, Scottish nurse, as partly responsible for shaping her son's character.

MacMillan thought they would be able to find many people who know of the life of Macrie.

On Sunday, July 7, 1946 Miss Ellen's life story of this remarkable woman was published, following two press dispatches. The first is the account of her passing told in the Toronto Telegram.

The second article, after her death made by a Glasgow paper, the name of which is available at the moment!

Mr. Roosevelt did not know that Miss Macrie died at Hamilton, Ont., last week and was broken on Saturday. "Ellen had a great influence on Franklin in his early boyhood," he said.

"She first held him in her arms when he was a month old, and she was his nurse until he was six."

"I am sure if Franklin were asked what had been the one big influence in his career he would say it was his mother, bringing up by Ellen Macarie."

Ellen, President of the United States, when he was a baby and was recently visited by the president of Franklin County, Saturday in Hamilton Cemetery, Rev. Dr. B. T. Martin, pastor of Glen's Church, officiating. Mrs. Macrone, a sister of Mrs. Macrone, who is 92 of age, accompanied by her daughters, came from Brainerd to attend the funeral.

Ellen could not travel abroad with us due to her health. She felt the loss of her dear brother. Her devotion to her charge was really touching, and when I tried to get her back in my arms she declined with tears in her eyes. I couldn't thank her another day in her homey Dorie."

Mrs. Roosevelt visited Miss Macrone in hospital at Hamilton, last winter.

Toronto Plumber Who Closed Shop To Go To War Able To Re-Open Pre-War Business Through Assistance of Rehabilitation System

Injured by: Rehabilitation
Information Committee (WIB)

Through Canada's rehabilitation system, James Griffiths of Toronto has been rescued from a quandary which many disabled service men are bound to meet. Before the war, Jim was a successful established plumber. He closed his shop in 1940 to join the army, spent four and a half years overseas, returned to Canada and was discharged. Substantial gratuity and re-establishment grants

enabled him to re-open his shop, but until it began to function, he supported his family on a temporary allowance provided in such cases. At far left, Jim is seen in his army uniform. Next, he talks with rehab. officer Raney, Toronto. Then he is shown working in a customer's bathroom and, at right, he is shown at the "head" above his shop in Toronto. Griffiths served with the R.C.E.M.E.
